

BY BCARD SOLUTIONS

Project P

Prepared by: Team Big Card

ABOUT

By Necessities aims to create complete software solutions for its clients, handling both the technical and design aspects.

ABOUT PROJECT P

Our Project P (Project Pharma) here it deals with the complex functionalities in the field of pharma like auditing, registrations, administration and centralized management of stocks which brings the 87.5% enhancement in ease of doing business and saving about 35% of resources spent on labour.

WHAT'S HAPPENING NOW

By Necessities , we are fairly a new company, less than a year and half old, but we're done with 3 projects and about to handle 18 new clients in the year 2018-2019.

Anchor Features

With our unique products , the Pharma based industries can achieve high performance and the best automation with smart and advanced features.

We design,develop & deliver our product with full pharma compliance.

With our revolutionary product which includes work flow management, resolves the crisis of managing, finding and tracking documents in critical information – intensive regulatory environment.

Our "P" Products

TEAM BCARD

01

Supplier Qualification

02

EDMS (Electronic
Documentation System)

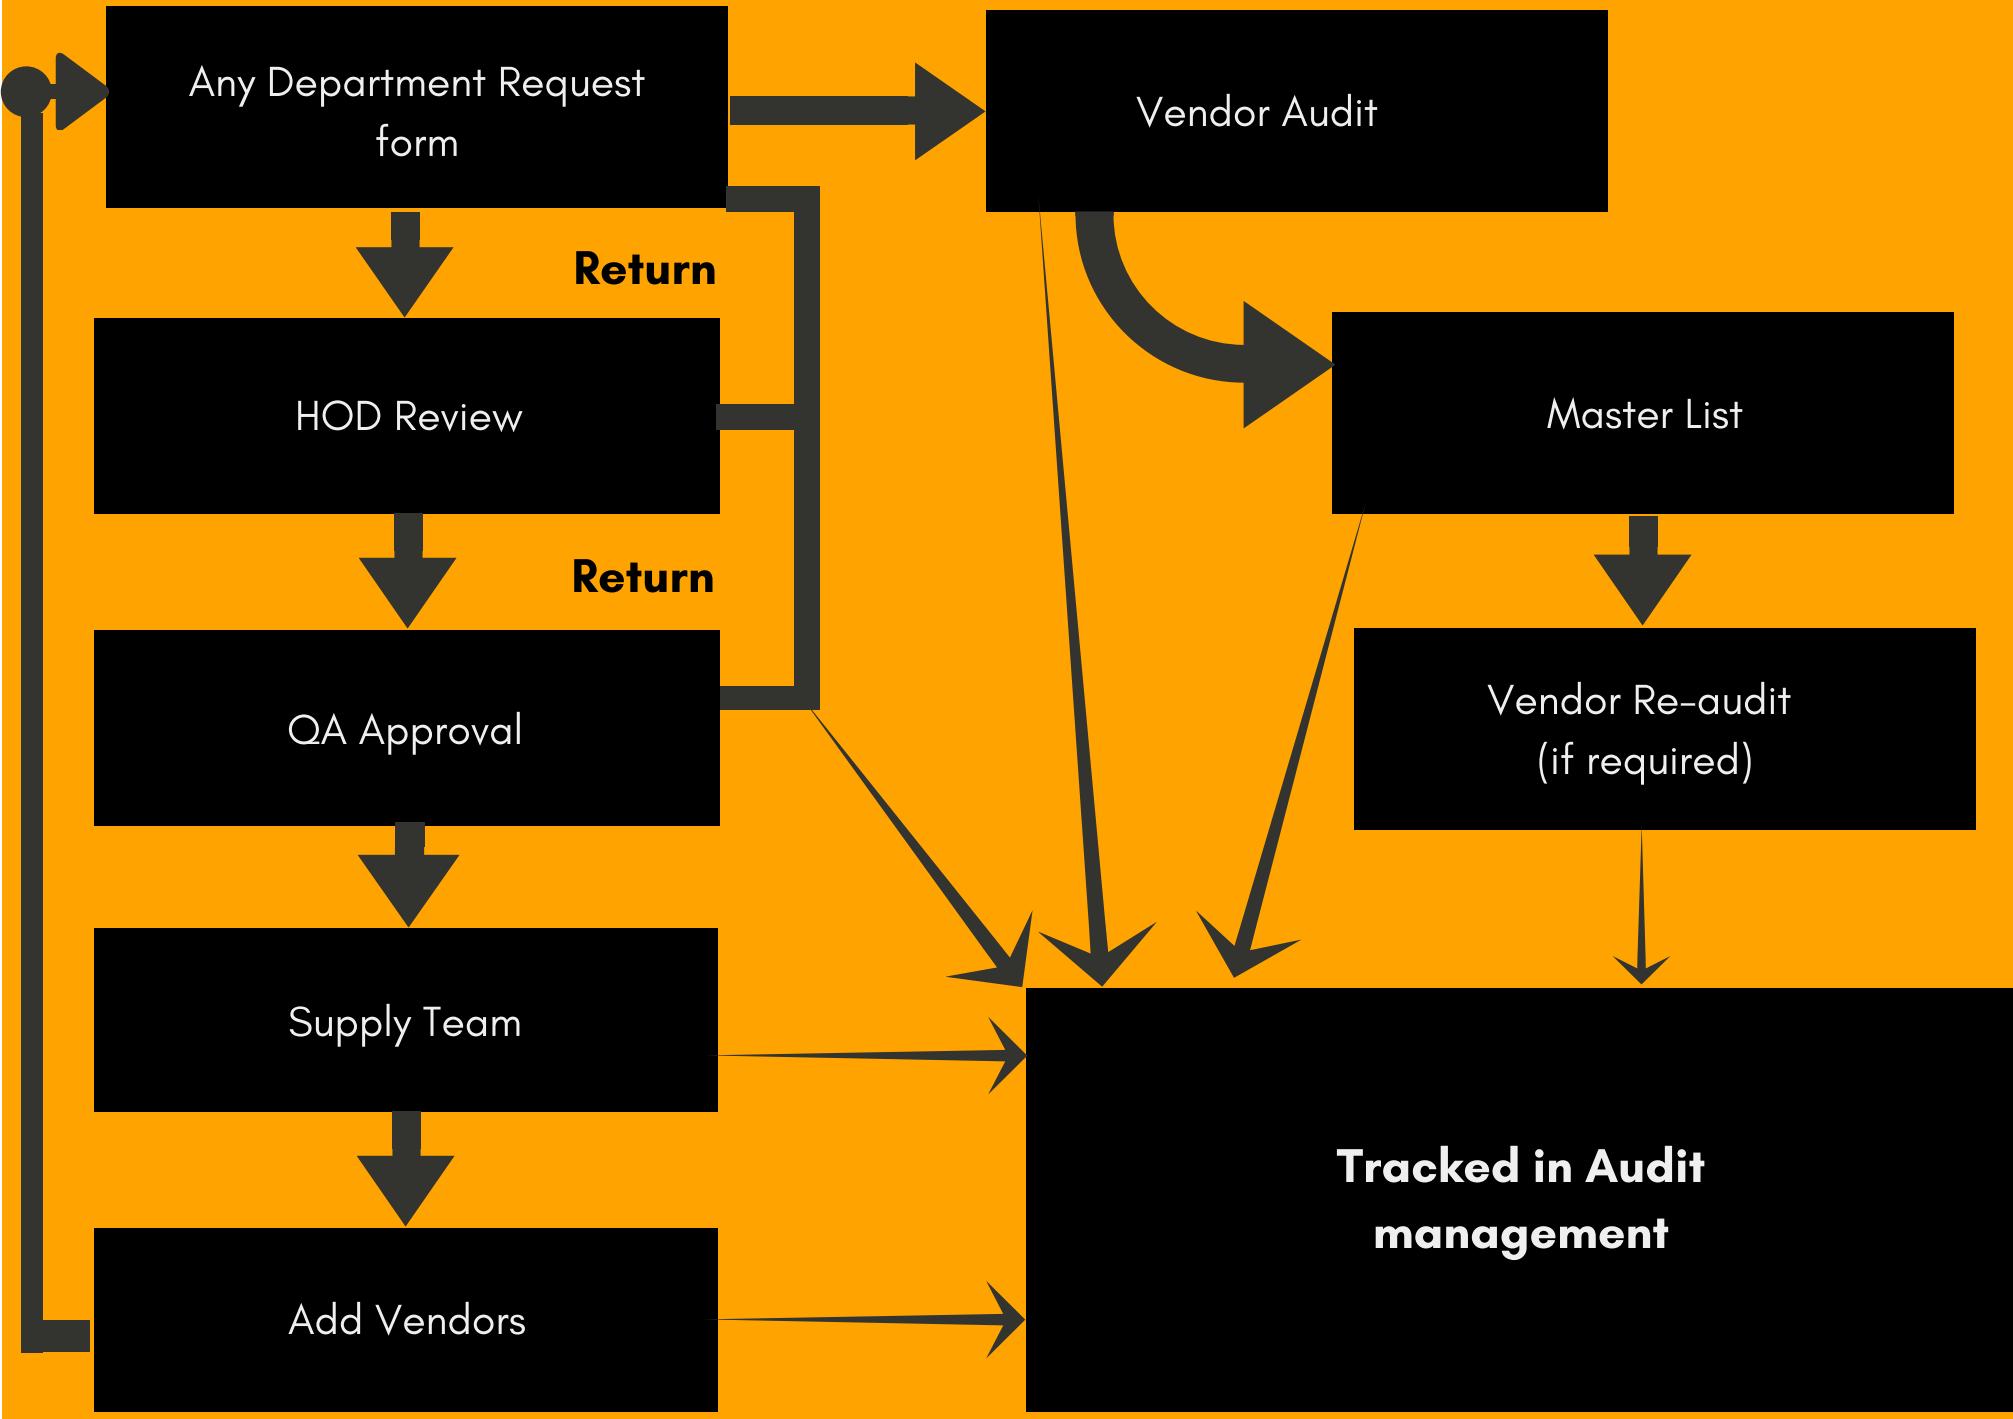

What is Supplier Qualification?

A centralized management of all the requirements (Man power, Material, Software, etc.,) across all the departments with work-flow(Reviews & Approvals) management and vendor audit for specific requirements.

Each and every transaction can be tracked in audit dash-board.

There is scope of integration with SAP.

What is EDMS?

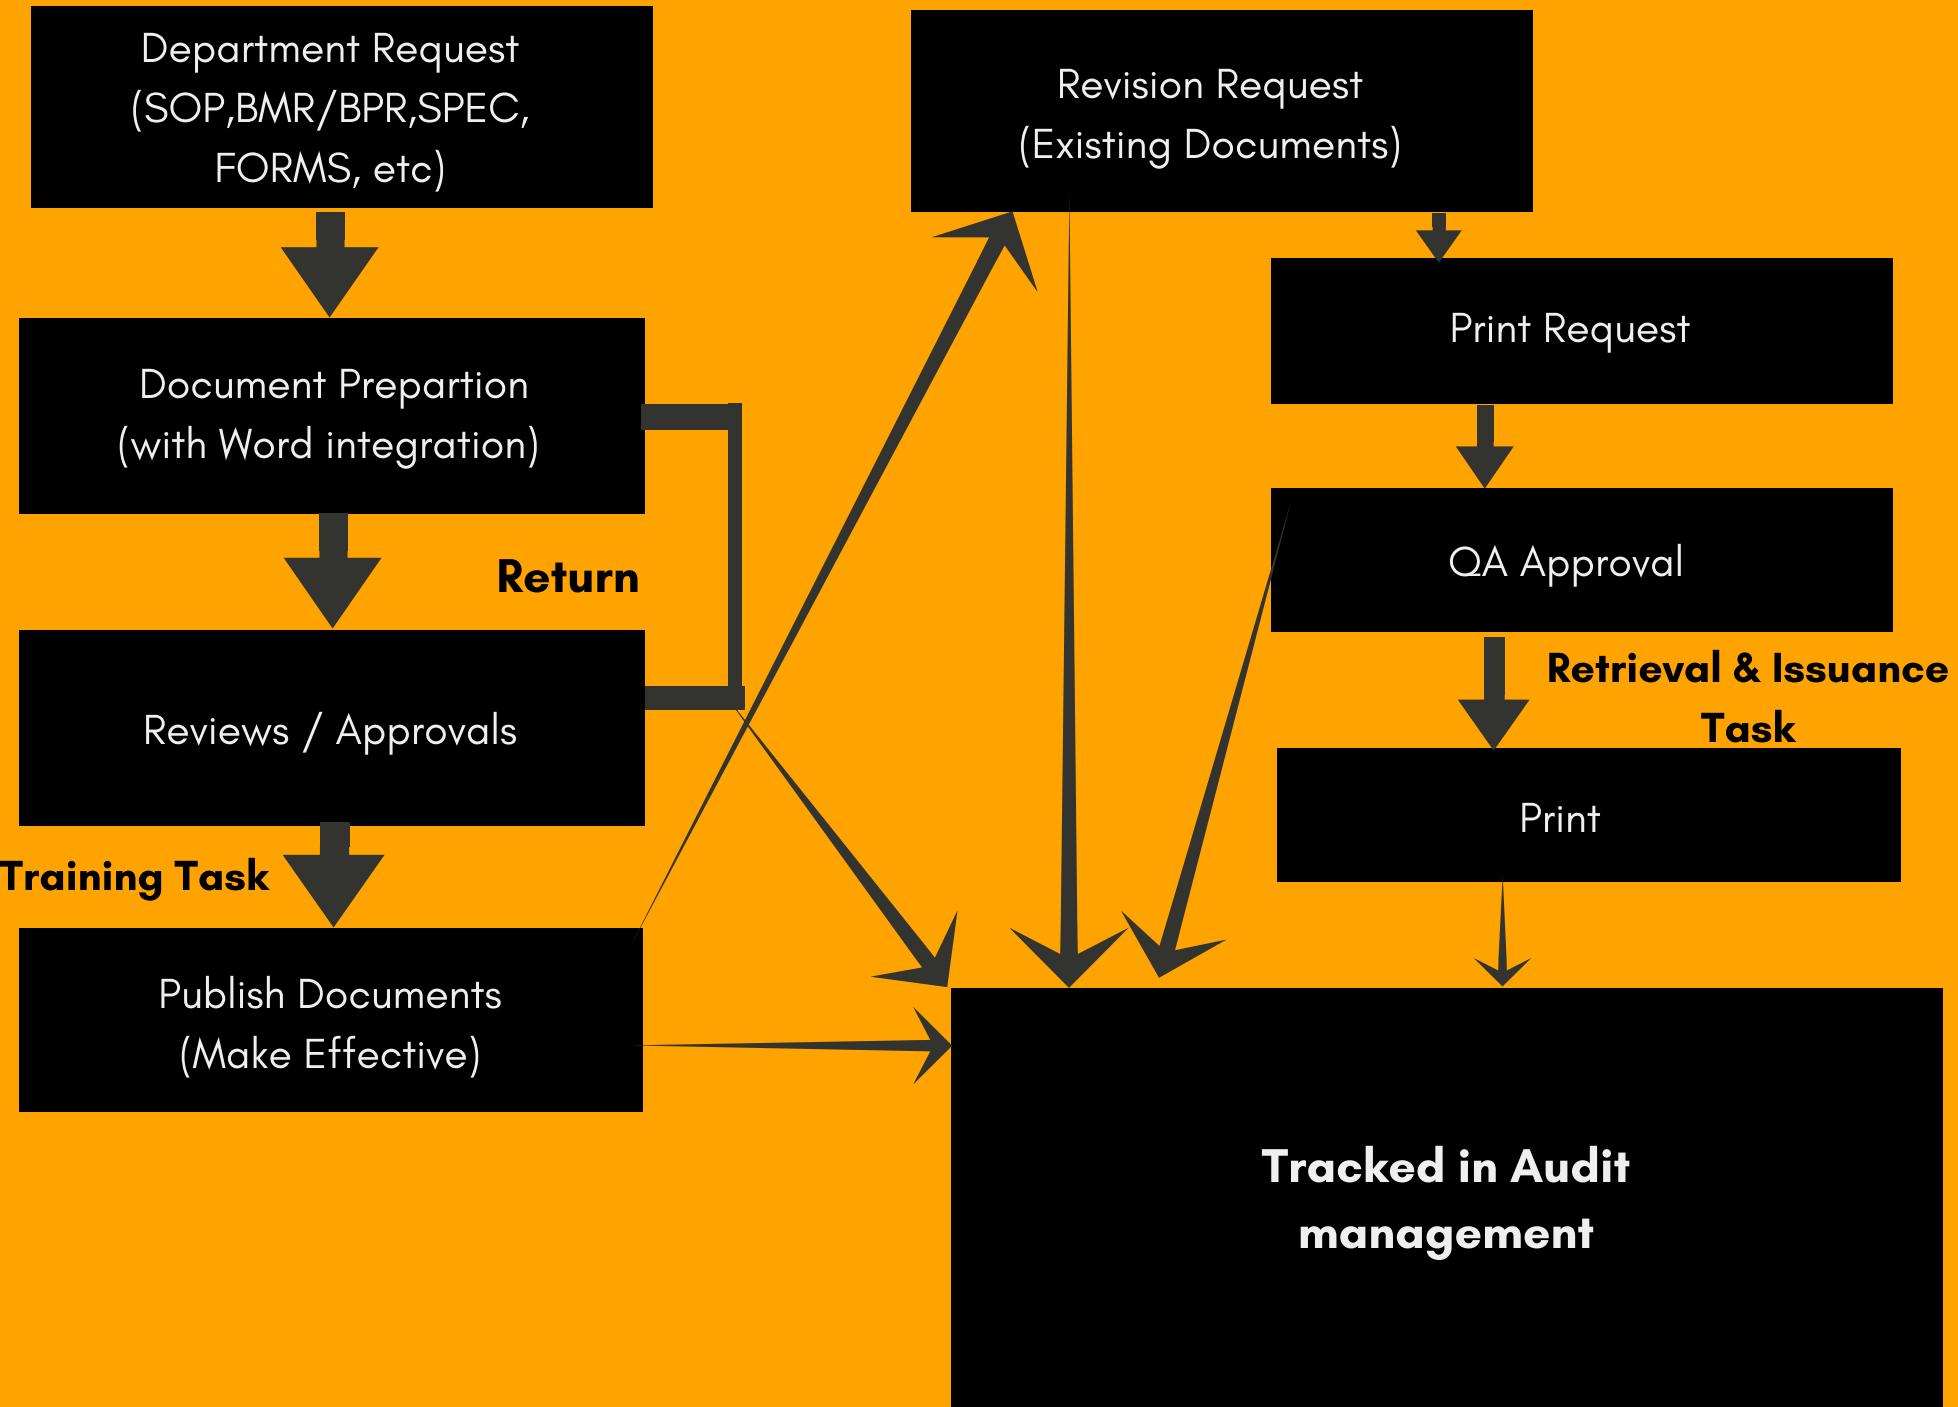

It is a Electronic Documentation Management system.

All the document types can be prepared, modified, revised with necessary formats and work-flow management.

We include some special features like Training, Obsoleting, Issuing, etc. required tasks internally.

Print functionality can be managed with print types, QA approvals.

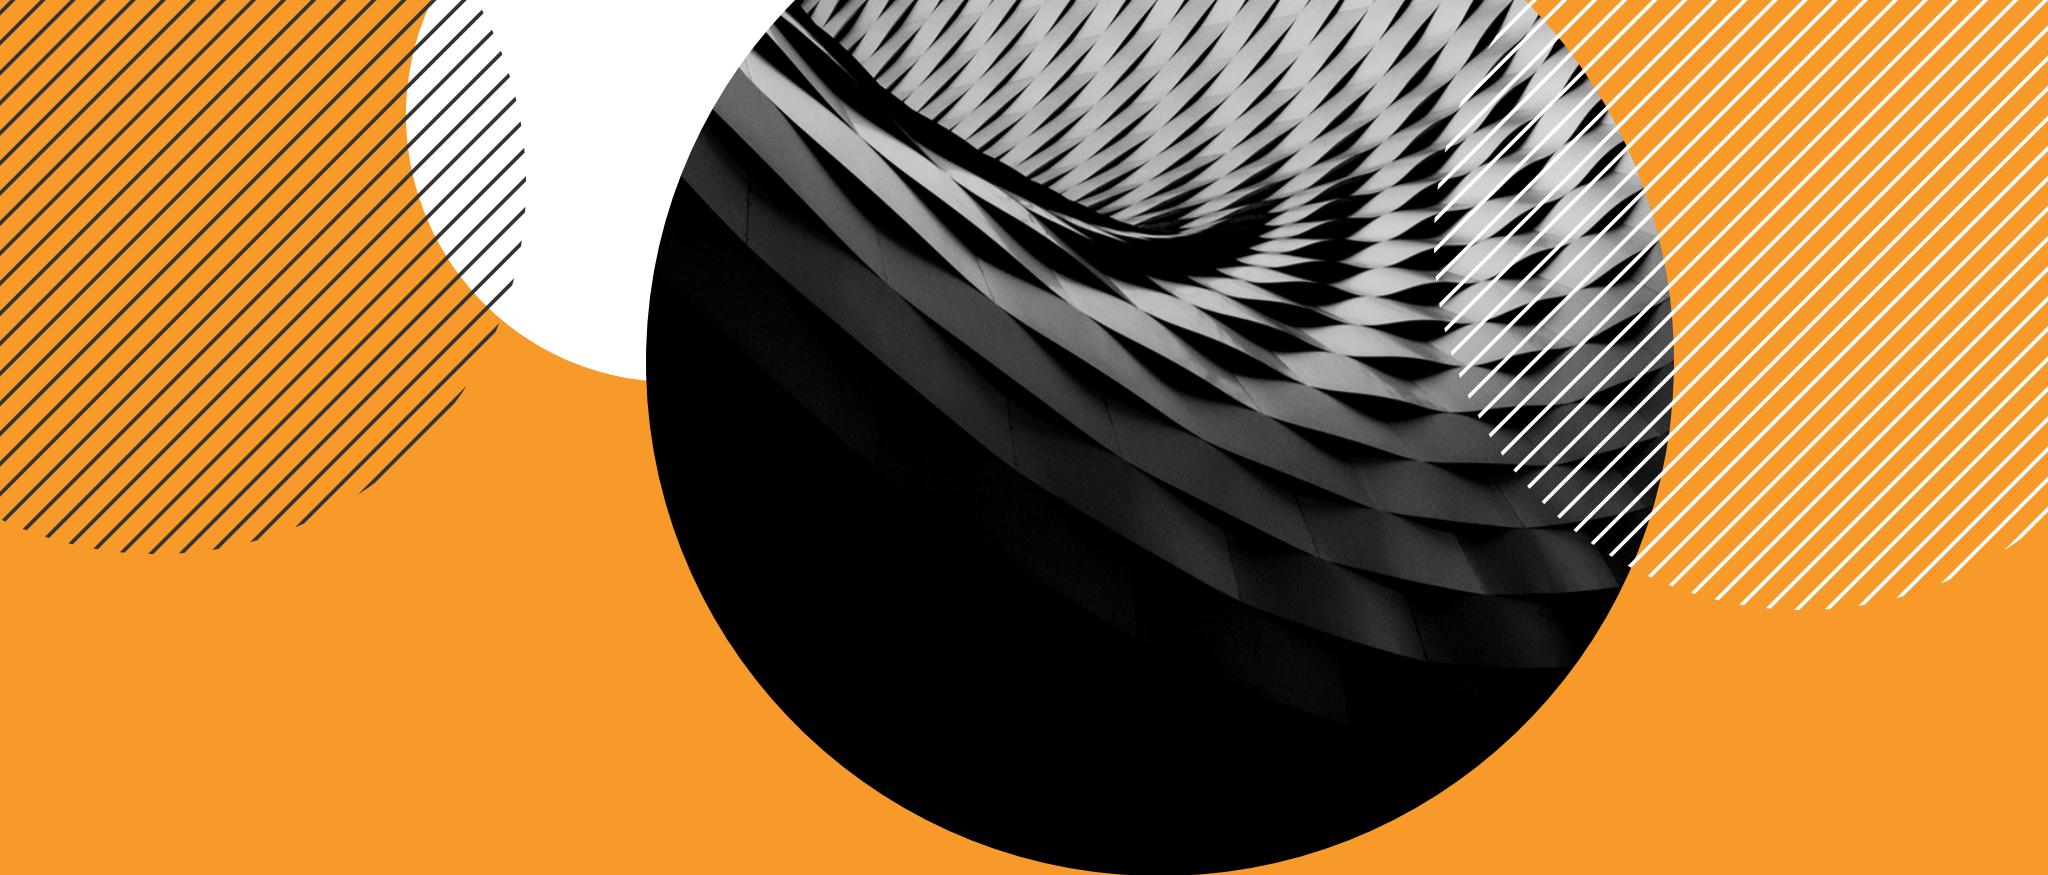

Benefits

- Our products are designed as per the rules of 21 CFR PART 11.
- All the transactions performed in our product are tracked under "Audit Dashboard" which can neither be altered nor deleted.
- All these tracked information can be used to generate reports which can be filed for further use(like audits).

Why our Products?

Our product is accurate and precise with the functionality, without any unnecessary functions .

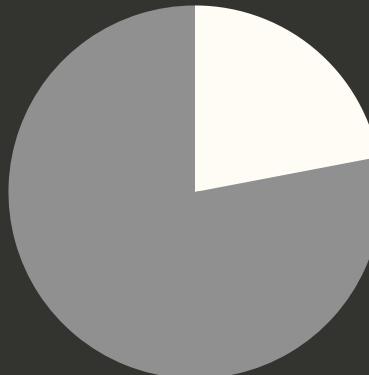

Our products can be easily molded according to the requirement from the customer.

Our products are designed user and admin friendly.

Our products are the easiest at its level for report generation to face the audits

The Numbers

22%

There are only 22% of the companies across the globe serving the products on requirement basis.

78%

Remaining companies adjust the existing products for mapping the requirements.

COMPETITIVE ANALYSIS

There's plenty of competition locally, but we're catching up quickly with our unique marketing strategies which gives us the strength to stand high equally with the BIG HEADS in the market.

MARKETING CAMPAIGN

- Find more investors
- Work on a few print and TV advertisements
- Do extensive market research and adjust accordingly
- Strengthen presence on Facebook and Twitter
- Get more links from respected websites

You can't look at the competition and say you're going to do it better. You have to look at the competition and say you're going to do it differently.

STEVE JOBS

The more you believe in us, the most you get from us.
